

# HARIOM BIRLA

Full Stack Developer | Laravel · React.js · Node.js

birlahariom11@gmail.com · +91 9575370343 · Indore, India · [github.com/hariombirla](https://github.com/hariombirla) · [linkedin.com/in/hariombirla](https://linkedin.com/in/hariombirla)

## PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 4+ years of experience architecting and delivering scalable web applications using Laravel, React.js, and Node.js. Proven track record of reducing API response times, mentoring development teams, and leading end-to-end product delivery across fintech, food-tech, and SaaS domains. Adept at building RESTful APIs, integrating third-party services, and implementing clean MVC architectures that support both mobile and web platforms. Seeking to leverage deep backend expertise and growing frontend skills in a high-impact product-based environment.

## TECHNICAL SKILLS

- **Backend:** PHP, Laravel (Livewire, Eloquent ORM, Queues, Events), Node.js, RESTful APIs, MVC Architecture
- **Frontend:** React.js, JavaScript (ES6+), jQuery, Bootstrap 5, HTML5, CSS3, Ajax
- **Database:** MySQL (query optimization, indexing), SQL, Redis (basics)
- **DevOps & Cloud:** Docker (containerization basics), Git, GitHub, Linux, cPanel, VPS deployment
- **Tools & PM:** Jira, Trello, Postman, VS Code, npm/Composer
- **Learning:** Golang, TypeScript, AWS fundamentals

## WORK EXPERIENCE

### Laravel Developer — Shepays

Mar 2024 – Present

Gandhinagar, Gujarat

- Spearheaded full-stack development of a women-focused fintech platform, delivering 5+ core modules including digital wallets, payment flows, and user onboarding within tight sprint cycles.
- Engineered high-performance RESTful APIs consumed by iOS, Android, and web clients, achieving sub-200ms average response times through query optimization and caching strategies.
- Architected modular Laravel codebase supporting multi-role access control (admin, merchant, end-user), reducing onboarding development time for new features by ~30%.
- Collaborated with product and design teams in Agile sprints, consistently delivering releases on schedule with zero critical post-deployment bugs.

### Laravel Developer — XcelTec Interactive Private Limited

Feb 2023 – Mar 2024

Ahmedabad, Gujarat

- Led development of 3+ client-facing Laravel applications, owning architecture, API design, and deployment pipelines end-to-end.
- Mentored 2 junior developers through code reviews and pair-programming sessions, improving team code quality and reducing PR review cycles by 40%.
- Introduced data-driven performance analyses that identified N+1 query issues across legacy codebases, boosting page load speeds by up to 35%.
- Pioneered reusable Laravel service and repository patterns adopted as team standards, cutting feature development time across projects.
- Integrated third-party payment gateways, SMS/email notification services, and cloud storage APIs for multiple enterprise clients.

### Junior Laravel Developer — Walking Dreamz Technology

Oct 2020 – Jan 2023

Indore, Madhya Pradesh

- Developed and maintained 4+ production Laravel applications, integrating modern UI frameworks to enhance user experience across web and mobile viewports.

- Streamlined backend processes and reduced average API response times by 25% through query optimization, eager loading, and caching improvements.
- Actively contributed to project planning, sprint estimation, and cross-functional collaboration for 10+ diverse client projects.
- Built and maintained admin panels with role-based dashboards, real-time reporting modules, and dynamic data tables.

## KEY PROJECTS

---

### Truffles — Omnichannel Restaurant Automation Platform

**Tech Stack:** *Laravel, jQuery, JavaScript, Ajax, Bootstrap, MySQL, RESTful API (iOS/Android/Web)*

- Built end-to-end restaurant automation platform with omnichannel ordering (dine-in, delivery, takeaway) and enterprise-grade inventory management.
- Designed and documented RESTful APIs consumed by native iOS and Android apps, supporting 1,000+ concurrent user sessions.
- Implemented real-time order tracking, kitchen display system integration, and automated reporting dashboards reducing manual ops by ~50%.

### Shepays — Women-Focused Fintech Application

**Tech Stack:** *Laravel, MySQL, RESTful API, Bootstrap*

- Developed core fintech modules: digital wallet, P2P transfers, merchant payments, and KYC onboarding flow.
- Ensured PCI-DSS-aligned coding practices for all payment-related modules; integrated third-party payment gateways and OTP verification.
- Delivered admin analytics dashboard with real-time transaction monitoring and user segmentation reporting.

### Job Portal — Recruitment Management System

**Tech Stack:** *Laravel, RESTful API, MySQL, Bootstrap*

- Built a dual-sided marketplace connecting job seekers and employers, with advanced job search (filters, location, category) and application tracking.
- Developed full admin panel for role management, job approval workflows, and analytics; REST API backend supports third-party job board integrations.
- Implemented email notification system for application status updates, reducing manual recruiter follow-up effort significantly.

### OTT Streaming Platform (Kooku, Bebu, Olaple)

**Tech Stack:** *Laravel, JavaScript, MySQL, CDN Integration*

- Contributed to backend development of 3 live OTT platforms, building content management, subscription billing, and video streaming module integrations.
- Implemented role-based content access control and subscription tier management supporting thousands of active subscribers.

### UpNetCloud — Virtual Server Provisioning Platform

**Tech Stack:** *Laravel, JavaScript, REST API, MySQL*

- Developed cloud server provisioning and management dashboard enabling users to spin up, configure, and monitor virtual servers via UI.
- Built API integrations with virtualization backends and automated server lifecycle events (creation, scaling, deletion).

### FindTheLoan — Loan Management System

**Tech Stack:** *Laravel, Livewire, MySQL, Bootstrap*

- Built a full-stack loan application and tracking platform using Laravel Livewire for reactive UI without a separate frontend framework.
- Implemented loan eligibility engine, application status workflows, and admin approval pipelines; reduced processing steps by 40% vs. manual process.

## EDUCATION

---

### **Bachelor of Engineering (B.E.)**

*Sagar Institute of Research and Technology, Indore*

February 2020

## ADDITIONAL HIGHLIGHTS

---

- Employee of the Month — XcelTec Interactive Private Limited (recognition for outstanding delivery and code quality)
- Certified — Seed Infotech (PHP/Laravel professional certification)
- Languages: English (Highly Proficient), Hindi (Native), Gujarati (Conversational)
- Interests: Open-source contribution, Photography, Travel, Music
